CHEM 1101: CHEMISTRY

Chemistry Lab Report

Semester: Fall

Session: 2023-2024

NO EXPERIMENT, NO REPORT

Experiment No: ☐

Name of the Experiment: -----

Date of Performance: -----, Date of Submission:-----

Course-Teacher:

Instructions:

1. A lab report consists of three parts: a cover page, body of the report, data and results sheet (lab-sheet) and discussion.
2. This is the cover page of a report and students will collect and preserve the lab-sheet of a particular experiment to be performed.
3. Body of the report includes-(1) Objective of the Experiment, (2) **Theory**, (3) Name of the Chemicals, (4) Name of the Apparatus, (5) Preparation of the Standard Solution, (6) Experiment Procedure. Discussion includes (**I. Precautions taken, II. Possible errors**).
4. Use A4-size off-set paper, write on one side of the paper by hand keeping suitable margin.
5. **Staple the cover page, body of the report, lab-sheet, discussion** of the report together.
6. Submit the report in time to avoid deduction of marks.
7. Students working in a group will write and submit the report jointly but rotate the responsibility for different experiments.
8. Copying of the report from others is strictly prohibited.
